

FOLLOW
THESE
SIMPLE
GUIDELINES:

BATHROOM

- › **Run the exhaust fan** during a hot shower/bath and for 30 minutes after.
- › **Open windows** during and after showers to allow **moisture to exit**.
- › Perform **regular checks on the exhaust fan** for any blockages and remove dust.

LAUNDRY

- › **Dry clothes outdoors** to prevent moisture build up inside the home.
- › If you **use a clothes dryer**, ensure **windows/doors are open** to allow moisture to exit.

KITCHEN

- › **Use a range hood** or exhaust fan when cooking.
- › Perform **regular checks on the exhaust fan** for any blockages and remove dust.

BEDROOMS

- › **Open windows** and blinds/curtains to **increase ventilation** and sunlight.
- › **Close windows** when **raining**.

LIVING AREAS

- › **Open windows** and blinds/curtains to **increase ventilation** and sunlight.
- › Keep **indoor plants** to a **minimum**.

GENERAL

- › **Ventilate rooms** by **opening windows** and doors regularly.
- › Place **furniture away from the walls** and reduce clutter.
- › **Report** faulty or **broken exhaust fans, range hoods, air conditioning units** to your property manager **immediately**.
- › If you do **find mould, report it immediately** to your Property Manager.
- › Keep **gardens well-maintained**. Trim trees and shrubs (if able) that grow close to the house. This will allow good ventilation around the property and inhibit the transfer of mould spores inside the home.
- › Use a **dehumidifier to draw moisture from rooms** or run air conditioning units on dry cycle.

Keeping the home free from moisture by following these steps is in your best interest.
If you have any concerns please contact your Property Manager to discuss.
