## **Curtain Care Instructions:**

**For use on polyester/cotton, polyester mixture & polyester fabrics, woven or knitted.**

- Remove hooks rings & trims before cleaning.
- Gently vacuum regularly with appropriate attachment.
- Warm hand wash.
- Do not bleach.
- Do not rub or wring.
- Drip dry in shade.
- Use warm iron.
- Dry cleanable P 50.
- Possible shrinkage 3%.

For best results hang curtains by their hooks to damp dry immediately.

*Alternatively, the blind can be cleaned by an accredited soft furnishing Dry Cleaner.*

## **Blind Care Instructions:**

- To remove dust from the blind surface we recommend vacuuming regularly using low suction, or a suitable soft duster or non-coloured cleaning cloth.
- Avoid pulling or stretching the fabric.
- Always remove dust from the fabric before cleaning.

## Cleaning Method

- Treat spills and stains as soon as possible.
- Wipe gently with a slightly damp cloth to remove any liquid or matter from the fabric surface. Do not use a coloured cloth. It is important to do a test clean on the least visible area of the blind.
- In case of stains, clean with a solvent free cleaner, such as a mild clear dishwashing detergent applied to a clean cloth or sponge. Do not use any abrasive substances, or any solvents that may deteriorate any PVC coatings.
- Do not saturate the fabric with water or other cleaning liquids. Allow the blind to dry before rolling/folding up the blind.

## Natural Fabric

- Blinds made from natural Paper Jute may show some variations in colour and weave. This is a characteristic of the fabric and does not detract from the quality of the blind.

*Alternatively, the blind can be cleaned by an accredited soft furnishing Dry Cleaner.*
